

THIS JOURNEY WILL CHANGE HOW YOU SEE THE WORLD & EMPOWER YOU TO FIND & USE ITS NATURAL ABUNDANCE...

PERMACULTURE

Permaculture is a design philosophy empowering people to take responsibility and create environments that require reduced energy inputs, while at the same time providing increased energy outputs, and revitalising the natural world.

**a two day workshop
on Permaculture
Sat 23rd & Sun 24th
July from 10am - 4pm
at Quarries Farm,
Gransha Road, Bangor**

Graham Bell will facilitate the workshops. The material delivered will be based on early day responses from attendees who are welcome to come for either day or both. Graham has extensive experience of working in this way and will ensure we all receive an introduction to what Permaculture is about, and some practical exercises to give people the chance to experience the realities of Permaculture as a design discipline.

COSTS : Waged £30 per day, £50 for both days
(unwaged costs available)

Prior notice of particular interests is welcomed from individuals.

To register please email to
